

Ira Sharma

irasharma.connect@gmail.com • www.linkedin.com/in/irassharma

Product leader with 7+ years building consumer and clinician-facing healthcare products across telehealth, AI imaging, and health insurance. Track record of shipping products that customers love and that move business metrics (eg. 70% claims backlog reduction, 12 minutes saved per patient visit) by pairing human-centred discovery with disciplined cross-functional execution. Currently advising an AI TechBio startup on 0 → 1 product and company build, and pre-seed raise.

RELEVANT EXPERIENCE

Aisomer (Stealth AI TechBio Startup)

Product, Strategy & Operations

Remote, US

Dec 2025 - Present

- Defining **business and product strategy** for an AI-native company, positioning it long-term scale.
- Building the **operating roadmap**, including the pitch and materials supporting capital raise and early customer acquisition.

Bloomberg Center for Public Innovation / Oakland Mayor's Office

Project Lead – Permitting System Research & Solutioning

Oakland, CA

May 2025 - Mar 2026

- Led diagnostic of the city permitting system through **50+ stakeholder interviews** across government, developers, and residents, identifying bottlenecks impacting thousands of applications annually.
- Translated research into HTML **prototypes of the 15 most-requested resident-facing permits** ready to plug into the city's website, and **formulated an LLM chatbot process** to make the experience replicable across additional permits.
- Delivered **service and process redesign recommendations** and built alignment across city agencies and community stakeholders, increasing buy-in for adoption of proposed reforms.

Nova Benefits (B2B Health Insurance Brokerage)

Lead Product Designer, and Product Manager

Bangalore, India

Jun 2022 - Nov 2023

- Co-owned **product definition and delivery** for a cloud-based claims tracking platform; shipped a workflow optimization and automation solution that **reduced claims backlog by 70% and improved team productivity by 40%**.
- Defined **product requirements and prioritized backlogs** with engineering, operations, and client-servicing teams; ran weekly scrums and internal hack-a-thons to boost product quality and team focus.
- Used **product analytics** (PostHog, Excel) to inform roadmap decisions; co-developed a **3-year product strategy** with the CTO aligning user needs with revenue growth and scalability.

Qure.ai (AI for Medical Imaging)

Product Design & Product Strategy Consultant

Mumbai, India

Jan 2022 - May 2022

- Conducted **user research and co-creation sessions with US and NHS clinicians** to design modular AI-enabled lung cancer imaging workflows aligned with public health priorities and constraints; solutions currently under testing at NHS.
- Created a **market analysis spanning 50+ US competitors**, driving a **5-year market positioning and growth roadmap** in partnership with M&A, Business Development, and Founder's Office teams.

Reya Health (Digital Doctor's Assistant)

Product Owner

Bangalore, India

Mar 2019 - Apr 2021

- Owned the full 0 → 1 product lifecycle** for a clinician-facing neurology outpatient workflow platform, from discovery through launch; translated clinician needs into user stories, acceptance criteria, and prioritized engineering backlogs.
- Led sprint planning and coordination across design, engineering, and clinical stakeholders; shipped a product that **reduced appointment times by up to 12 minutes per visit** while fully replacing physician documentation (deployed during Covid!)
- Led co-creation with physicians** to ensure usability, adoption, and clinical relevance within regulated healthcare settings.
